Santa Maria Community Services, Inc. Receives $30,000 Grant from The Sutphin Family Foundation to Support Families Facing Housing Instability

Santa Maria Community Services, Inc. is pleased to announce that it has received a $30,000 grant from The Sutphin Family Foundation to help Greater Price Hill families facing housing instability remain in their homes and avoid homelessness.

As housing costs rise and affordable options become harder to find, many families in Price Hill face difficult financial decisions that put their housing at risk. The consequences of eviction can extend far beyond losing a home, disrupting children's education, emotional well-being, and sense of stability. These disruptions can have lasting effects on a child's development and academic success, affecting their opportunities well into adulthood. This funding will support Santa Maria's housing stabilization efforts through individualized case management, financial coaching, and assistance accessing community resources.

"Stable housing is the foundation for so much of a family's well-being, especially when children are involved," said H.A. Musser, Jr., President and CEO of Santa Maria Community Services. "We're grateful to The Sutphin Family Foundation for helping us support families through difficult times while giving them the tools to build greater stability for the future."
